---

### Summary of qualifications:

I have been working as frontend-end developer freelancer for more than one year. I've gained experience in building web application and services for commercial project of CRM system.

I have successfully applied my skills in Javascript, HTML5, Sass, WebPack. In order to advance my skills and knowledge, I have recently started studying React Fundamentals.

In addition, I have general skills in graphics editors, such as Photoshop and 3DStudio MAX.

On previous positions I had an experience in design, development and administration of the database for the construction of BS network. I've successfully completed Harvard CS50 programming courses (BrainBasket Foundation).
